

# 67th IFLA Council and General Conference

## August 16-25, 2001

---

**Code Number:** 135-110-E  
**Division Number:** IV  
**Professional Group:** Division Bibliographic Control  
**Joint Meeting with:** -  
**Meeting Number:** 110  
**Simultaneous Interpretation:** Yes

### Section on Bibliography Review of activities 2000-2001

#### **John D. Byrum, Jr.**

Secretary of the Section on Bibliography,  
Library of Congress, Washington, D. C. USA

---

#### **Scope of the Section on Bibliography**

The Section on Bibliography is primarily concerned with the content, arrangement, production, dissemination and preservation of bibliographic information, especially (but not exclusively) where these pertain to national bibliographic services. It is also concerned with the promotion of the importance of the discipline of bibliography to library professionals in all types of library (not just national libraries), to publishers, distributors and retailers and also to end-users. While taking full account of technological possibilities, the Section is aware that such developments are not yet fully available in some areas of the world, and it will ensure that its solutions are not necessarily dependent on particular technologies. The Section is closely associated, where appropriate, not only with the other Sections within the Division of Bibliographic Control and with the UBCIM Programme, but also with the Sections on Information Technology and of National Libraries.

#### **Standing Committee Membership and Officers**

109 associations, institutions, and personal affiliates are currently members of the Section.

The members of the new Standing Committee for the period 2001-2005 are: 20 full members, 4 corresponding members, and 1 honorary advisor.

Full members of the Standing Committee are from 17 different countries: Croatia, Czech Republic, Denmark, Finland, France, Germany, Iran, Italy, Norway, Portugal, Russia, South Africa, Spain, Sri Lanka, Sweden, United Kingdom, United States of America.

Werner Stephan (Universitätsbibliothek Stuttgart) and John Byrum (Library of Congress) will complete their terms of office as chair/treasurer and secretary, respectively, at Boston and elections will be held for both offices. Kirsten Waneck (Dansk BiblioteksCenter) is serving as Information Coordinator.

### **Action Plan 2000-2001**

At its two meetings held during the 2000 IFLA Conference in Jerusalem, the Section's Standing Committee devoted considerable attention to its Medium Term Program for 1998-2001 and the action items formulated to achieve the goals for the period. Specific topics of interest from the action plan are normally handled by working groups. At the moment, the members of the Standing Committee are involved in various projects of the section itself and in projects in cooperation with other sections of the Division of Bibliographic Control and with the Sections on Information and Technology and on National Libraries.

The Section on Bibliography's Standing Committee has dealt attentively with the recommendations and results of the International Conference on National Bibliographic Services (ICNBS) held in 1998. The work showed main points of concern which should be pursued and promoted. Unfortunately, the status of the proceedings of this conference is still not clear, although most recently publication had been projected for autumn 2000. However, the document regarding *Guidelines for Legal Deposit* is now available electronically on IFLANET at <http://www.ifla.org/VII/s1/gnl/legaldep1.htm>. This document is a much needed revision of earlier Guidelines undertaken to consider changes resulting from a larger number range of jurisdictions and the advent of electronic publishing and publications.

The Standing Committee last year established a small working group to: (1) identify national bibliographic agencies which essentially comply with the recommendations of the ICNBS, mentioned above; and (2) to discover bibliographies which could be more effective if produced in greater compliance with the recommendations. An additional justification for this project is to determine and suggest ways by which national bibliographic agencies can use their limited resources more efficiently through voluntary cooperation. A final report has been submitted, and it will be the subject of meetings during the Boston Conference.

The Section appointed another working group to develop and test a strategy for enlisting publisher cooperation in providing metadata for electronic resources they produce to assist national bibliographic agencies in preparing entries for these resources. This group will also investigate how best to utilize metadata from publishers to promote bibliographic control. The Section will work with the Section on Classification and Indexing to undertake a survey of "subject gateways" as an emerging form of webliography of increasing utility to librarians and library users. Yet another working group has been formed to propose guidelines to serve as selection criteria to assist national bibliographic agencies in deciding which electronic resources to represent in their bibliographies. In addition, the Standing Committee is revisiting and updating two earlier surveys in this field which it had commissioned, one by Ross Bourne on "National Bibliographic Agencies and the Book Trade" and the other by Robert Holley entitled "Results of a Survey on Bibliographic Control and National Bibliography".

### **Conference Programmes and Workshops**

#### **Jerusalem, 2000:**

The Section sponsored an Open Forum that was well attended, at which three papers were presented. Bohdana Stoklasova of the National Library of the Czech Republic presented a paper she prepared with a contribution by Marie Balikova, also of the National Library, on "The national bibliography of a small country in international context" (available at <http://www.ifla.org/IV/ifla66/papers/093-123e.htm>)

Rochelle Kedar, Bar Ilan University, Gamat Gan, Israel presented a paper on “Bibliographic projects and tools in Israel” (available at: <http://www.ifla.org/IV/ifla66/papers/090-123e.htm> ). The final paper was prepared by Maria Patrizia Calabresi, Biblioteca Nazionale Centrale ( Rome) entitled “Two national central libraries in Italy: bibliographic co-operation or competition?” (available at: <http://www.ifla.org/IV/ifla66/papers/066-123e.htm>)

Three speakers were invited to share their experience with about 30 participants from 13 different countries who attended the Workshop.

The first speaker was Retha Snyman, a senior lecturer in the Department of Information Science, University of Pretoria, South Africa. Her talk covered “Bibliographic control - is the current training still relevant?” is available at <http://www.ifla.org/IV/ifla66/papers/108-183e.htm> . The second speaker was Mona Madsen, Head of the Department of Information Studies in the Royal School of Library and Information Science, Copenhagen. Her presentation focused on “Teaching bibliography, bibliographical control, and bibliographical competence” and is available at <http://www.ifla.org/IV/ifla66/papers/144-183e.htm>

There followed an extensive and lively discussion on the Workshop topics.

### **BOSTON 2001:**

The Section is planning an Open Forum on August 21, 12:30-15:00, on the topic “Bibliography: indispensable or redundant” and to include the following presentations:

- “Bibliographic control or chaos: an agenda for national bibliographic services in the 21st century” by Michael Gorman (Dean, Library Services, California State University, Fresno, USA)
- “Selektion von Online-Publikationen für Nationalbibliographien” by Claudia Werner (Head, Central Bibliographic Services, Die Deutsche Bibliothek, Frankfurt am Main, Germany)
- “The New Books Project: a prototype for re-inventing the Cataloguing-in-Publication program to meet the needs for publishers, libraries and readers in the 21st century” by John Celli (Head, CIP Division, Library of Congress, Washington, USA)
- “The Canadian National Bibliography: 50 years of continuity and change” by David Balatti (Director, Bibliographic Services, National Library of Canada, Ottawa, Canada).

In addition, the Section will co-sponsor, with the Section on National Libraries, a half-day Workshop August 23 13:30-17:30 on “What makes a good national bibliography even better? Current Situation and Future Prospects”. It will cover the findings of a recent study of the status and trends concerning production of national bibliographies throughout the world – with particular attention to their conformance with and implementation of recommendations produced by the International Conference on National Bibliographic Services (Copenhagen, 1998). In addition, representatives of three national bibliographies selected for some exceptional accomplishments – Swaziland, South Africa, and Sweden – will report on their accomplishments and the measures taken to realize them. There will be information shared regarding the International Conference on National Bibliography in a Changing Information Environment, held October 2000 in Tallinn, Estonia. In addition, a 1996 survey regarding impacts of new technology on production and distribution of national bibliographies will be updated. Finally, there will be a thought-provoking presentation on uses and usefulness of national bibliographies.

The conveners are John D. Byrum, Jr. Secretary IFLA Section on Bibliography, Library of Congress USA and Fernanda Guesdes de Campos, IFLA Section on National Libraries, National Library of Portugal. The program consists of presentations by Anne Langballe, National Library of Norway, Oslo Division;

Barbara Bell, College of Wooster, USA; Tienie de Klerk, National Library of South Africa, Pretoria, RSA; Paiki Muswazi, University of Swaziland Library; Eva Tedenmyr, National Library of Sweden, Stockholm; Janne Andresoo, National Library of Estonia, Tallin; Unni Knutsen, National Library of Norway, Oslo Division; and, Marcelle Beaudiquez, Bibliothèque nationale de France. Time has been allocated for discussion by Workshop participants.
